BIM for Owners SmartStart

The BIM for Owners SmartStart is a proven process that reviews where you are today, where you want to be, and provides a comprehensive roadmap to get there.

Ensuring you get the right data from building information models to effectively maintain and manage your facilities is at the heart of IMAGINiT’s BIM for Owners SmartStart. Whether you need to make the move to BIM or just need to be more efficient with models, IMAGINiT can help.

Here’s how the IMAGINiT BIM for Owners SmartStart works:

- You meet with our experts to uncover the true needs of your organization
- Using your outlined needs, we help you develop BIM standards and guidelines
- We help you implement your unique BIM strategy with hands-on training and process improvements that ensure you don’t lose valuable building data
- Finally, IMAGINiT helps you link your facilities systems to model data, efficiently

We offer unique tools that speed your process, such as:

- BIMSwitch, that helps you convert CAD files to models, keep models on the correct version, and provides a unique library of BIM families set up with owners in mind
- IMAGINiT Clarity Owner Data Portal, which provides an online system to view and query model data, without needing to open Revit
- Leica Geosystems Reality Capture tools, such as the BLK360 and RTC360 that offer a simple way to collect as-built data you can quickly turn into models

With the IMAGINiT BIM for Owners SmartStart, you could:

- Integrate data from models into your facilities management systems
- Use COBie information from models
- Connect with Autodesk BIM 360 to manage your data
- Establish a BIM workflow, providing faster and more effective build-to-maintenance processes
