

**For Immediate Release**

## **IMAGINiT Technologies Releases New Software and Services at Autodesk University 2012**

*iPad Bar and Demo Stations Allow Attendees to Sample New Software Products and Service Offerings While Speaking with AU Class Leaders in IMAGINiT Booth #836*

**FRAMINGHAM, MA and LAS VEGAS, NV – November 27, 2012** – [Rand Worldwide](#) (OTCBB: RWWI), a global leader in providing technology solutions to organizations with engineering design and information technology requirements, announces that [IMAGINiT Technologies](#) has experts leading 13 Autodesk classes and is also showcasing new software and service offerings at Autodesk University (AU) 2012 (booth #836). New software products and updates extend the value of the Autodesk toolset and include [IMAGINiT Utilities for Revit](#), [IMAGINiT Clarity](#), and [Scan to BIM](#). IMAGINiT's new service offerings include the Revit Health Check, Civil 3D Health Check and the newly acquired [Computational Fluid Dynamics analysis](#) consulting team. The conference takes place November 27 – 29, 2012 at the Mandalay Bay Resort and Casino in Las Vegas.

"IMAGINiT's theme of 'Your Problem. Solved.' reflects our continued focus on providing organizations with the necessary analysis and consulting to help them best achieve their design engineering goals," says Bob Heeg, executive vice president, IMAGINiT worldwide operations, IMAGINiT Technologies. "For 20 years, our global team of technical experts has been elevating the value derived from our customers' software investments. We maximize their ROI by training their people, optimizing their processes and extending the technology they've adopted. There's no silver bullet that solves a company's challenges, but integrating their people, processes and technology provides a winning solution every time."

### **Interactive Demo Stations**

IMAGINiT experts will showcase their latest products and utilities that extend the capabilities of Autodesk software to help building, civil and manufacturing organizations achieve their design engineering objectives. With experts who are focused on providing services such as implementation, data management, process automation, custom software development and consulting, IMAGINiT can provide insight on how to solve your complex CAD problems.

Attendees can view demonstrations of new products and updates to the popular [IMAGINiT Clarity](#), [Scan to BIM](#), [IMAGINiT Utilities for Revit](#), and [IMAGINiT Utilities for Vault](#) productivity enhancing tools. The newly launched IMAGINiT Clarity Workshare enables BIM teams that are not using Autodesk Revit Server to improve their traditional file-based work sharing approach and fully automate Autodesk Revit software related tasks. The new Scan to BIM 2013 product advances the ability to visualize, interact and manage point clouds natively in Autodesk Revit. A short [Scan to BIM video](#) highlights the product's unique features. Now totaling 17, IMAGINiT has just released three new IMAGINiT Utilities for Revit which include the latest tools Revit Excel Link, Parameter Concatenator and Dim Text Update.

**-MORE-**

At the iPad bar, booth visitors can navigate the ProductivityNOW portal, the industry's leading support destination. IMAGINiT's training and support experts invite visitors to submit their toughest CAD challenges in person or via Twitter using the hashtag #MyCADproblem. People submitting questions via Twitter during the month of November using the hashtag, will be entered into a drawing where one lucky recipient will receive a full conference pass to next year's Autodesk University.

### **Valuable Service Offerings**

IMAGINiT experts will highlight their deep consulting experience in the building, civil and manufacturing industries. In addition to the long established service offerings including data management and process automation, three new consulting services are being introduced.

The newest consulting service to be added to IMAGINiT offering is the [Computational Fluid Dynamics analysis](#) service. This highly specialized group of experts provides Computational Fluid Dynamics analysis and thermal simulation services that uncover design insight to help businesses make better design decisions faster, grow revenues and increase profits. Two other new services include IMAGINiT's Civil 3D Health Check and IMAGINiT's Revit Health Check, both specifically designed to help organizations ensure that they are taking full advantage of the efficiencies from their Autodesk software investment.

### **About IMAGINiT Technologies**

[IMAGINiT Technologies](#), a division of [Rand Worldwide](#), advances the way architects and engineers design, develop, and manage projects. Customers of this leading professional services and technology company include organizations in the building, infrastructure, manufacturing and facilities management industries. *Fortune 500* and *Engineering News Record's* Top 100 organizations work with IMAGINiT Technologies to gain competitive advantages through expert technology consulting, implementation, training, and support services. As one of the world's largest integrators of Autodesk 3D design and engineering software, the team leverages unrivalled industry experience to design systems that accelerate innovation while improving project quality and profitability.
