For Immediate Release

IMAGINiT Technologies Releases
Latest IMAGINiT Clarity Family of Products

New updates to IMAGINiT Clarity programs extend the value of BIM data from design and construction to building operations

OWINGS MILLS, MD — October 7, 2015 — [Rand Worldwide](#) (OTCBB: RWWI), a global leader in providing technology solutions to organizations with engineering design and information technology requirements, today announces that its [IMAGINiT Technologies](#) division is releasing the Clarity 2016.1 family of products. Key new features of [IMAGINiT Clarity](#), [IMAGINiT Clarity Connect, IMAGINiT Clarity Connect LT](#) and the newly released [IMAGINiT Clarity Owner Data Portal](#) (ODP) allow AEC firms to capture information from the Building Information Model (BIM) to aid the transition from construction to building operations. Enhancements include expanded datasheets, improved data collection, including COBie data, and graphical reports. For facility managers seeking to further utilize BIM information, IMAGINiT's new Clarity Owner Data Portal offers ARCHIBUS integration and building-centric reports.

The IMAGINiT Clarity family of products saves project teams hundreds of hours by automating necessary, but time-consuming tasks like printing PDFs, exporting data exchanging files and creating data sheets. Designed to work with the [Autodesk Revit,](#) [A360 Collaboration for Revit](#) and [Autodesk Revit Server](#) platforms, IMAGINiT Clarity allows non-Revit users to access and update model data, facilitating collaboration throughout the entire building lifecycle.

Latest Enhancements to IMAGINiT Clarity Products

- ***Enhanced Data Collection and Reporting*** offer additional ways to quickly enter and edit data, including batch editing and setting rules to classify important data, such as COBie data. In addition to being compatible with facilities management systems, this data can be used to generate graphical reports on rooms, furniture and equipment that are easy for building operations teams to review.

- ***Expanded Data Sheets*** include measurement by area as well as spaces to allow companies managing individual rooms to view information by suite or building floor level.

Live Demonstrations

Experience the IMAGINiT Clarity family of products' new data collection and distribution features first-hand by visiting booth 576 at IFMA's World Workplace conference in Denver, Colorado, October 7-9, 2015. Matt Mason, director of software development, and Joe Eichenseer, director of technical resources for building lifecycle solutions, are offering live demonstrations of IMAGINiT Clarity Owner Data Portal.

Availability & Pricing

All IMAGINiT Clarity products are available with perpetual licensing or on a subscription basis for those who want to use the tools for a specific timeframe.

IMAGINiT Clarity offers an unlimited number of users and projects and also includes basic installation and training. Maintenance fees apply. For organizations that need to collaborate with internal and external teams, IMAGINiT Clarity Connect and IMAGINiT Clarity Connect LT can be packaged with Autodesk Revit Server or can be integrated into an existing installation. Setup and training is included and managed by IMAGINiT's trusted team of implementation and training experts. Pricing is dependent on number of locations, hosts, accelerators and task servers. Maintenance and subscription fees apply.

About IMAGINiT Technologies

IMAGINiT Technologies, a division of Rand Worldwide, advances the way architects and engineers design, develop, and manage projects. Customers of this leading professional services and technology company include organizations in the building, infrastructure, manufacturing and facilities management industries. *Fortune 500* and *Engineering News Record's* Top 100 organizations work with IMAGINiT Technologies to gain competitive advantages through expert technology consulting, implementation, training, and support services. As one of the world's largest integrators of Autodesk 3D design and engineering software, the team leverages unrivalled industry experience to design systems that accelerate innovation while improving project quality and profitability.
