

IMAGINiT Technologies Receives Three New Autodesk Partner Awards

*IMAGINiT Recognized for Innovative Software
and Outstanding Technical and Sales Expertise*

BALTIMORE, MD – MAY 21, 2019 – [IMAGINiT Technologies](#) has earned recognition as the inaugural winner of Autodesk’s new Partner Business Innovation, Partner Sales Representative Collaboration and Partner Technical Representative Collaboration Awards. Autodesk personnel nominated IMAGINiT for these awards in recognition of their commitment to deliver unique value to their customers and for enhancing the success, adoption and experience that they have when using the Autodesk products. These new awards come on the heels of six consecutive wins of the annual Autodesk Platinum Club Awards.

“IMAGINiT is always pushing the envelope to improve the customer experience through the innovative use of technology, people and processes,” says Jim Quanci, senior director, Autodesk Developer Network. “Their Clarity software harnesses the power of Autodesk Forge to provide project teams with time saving dashboards, automation and insights and to augment the capabilities of Autodesk BIM360. Building Clarity on the Forge platform, ultimately gives IMAGINiT a unique ability to win more BIM360 business while giving their customers a unique path to success.”

As members of the Autodesk Developer Network, IMAGINiT was one of the early adopters of the Autodesk Forge platform upon its release in 2014 when they integrated its capabilities into the IMAGINiT Clarity product. As the Forge platform evolves, so too have the powerful integrations that IMAGINiT is able to create between Clarity and tools such as Revit and BIM360 giving customers using both BIM360 and Clarity, an effective means to collaborate across all stakeholders and increase team productivity. With Clarity and its integrations to BIM360 made possible by the Forge backbone, IMAGINiT gives customers a unique tool that gives them confidence that they can adhere to their established data policies in the BIM360 environment while experiencing the benefits of doing business in the cloud.

“We remain sharply focused on increasing the value our customers receive by embracing Autodesk technology to develop our own powerful software products and processes,” says Larry Rychlak, president and chief executive officer, Rand Worldwide. “This unwavering focus and years of software development have earned us these three prestigious Autodesk awards and we are thankful for this recognition of our commitment. We’re also very proud to see the IMAGINiT team recognized for their hard work and we are especially proud of Janet Vrotacoe and Jamey Dempsey for earning the Partner Sales Representative Collaboration Award and Cory Gallagher and Vince Daniele who captured the Partner Technical Representative Collaboration Award.”

About IMAGINiT Technologies
