

## ***IMAGINiT Showcases Construction Solutions that Connect Office and Field Teams at World of Concrete 2026***

**BALTIMORE, MD — January 20, 2026 —** [IMAGINiT Technologies](#), a division of Rand Worldwide, will highlight its ecosystem of construction solutions and professional services at [World of Concrete 2026](#), taking place January 20–22 at the Las Vegas Convention Center. At Booth #N1418, concrete and construction professionals can explore how to tackle industry challenges such as fragmented workflows, skilled labor constraints, and project delivery inefficiencies. IMAGINiT experts will show how connecting data and integrating processes can help improve productivity and support better decision-making across the construction project lifecycle.

“In 2026, construction teams continue to experience increasing pressure to deliver projects faster while managing risk and protecting profitability,” said Bill Zavadil, president and chief operating officer at IMAGINiT Technologies. “World of Concrete is an ideal venue for us to connect with leaders in the construction industry and demonstrate how connected technology solutions and services help contractors, builders and owners integrate data, systems, and people to extract lasting value from their technology and workforce investments.”

At Booth #N1418, IMAGINiT's construction experts will share proven ways to address common challenges facing today's concrete and construction teams, from coordination gaps to productivity measures. Through live demonstrations and one-on-one conversations, attendees will learn best practices and how IMAGINiT combines technology with expert consulting, implementation, and integration services to help firms move from disconnected tools to more efficient, data-driven workflows that support more predictable project delivery.

Attendees can explore solutions and services across several areas, including:

- **[Reality Capture](#):** Live scanning demonstrations using Leica’s latest scanner technology to accurately capture existing conditions and reduce rework
- **[GoCanvas](#):** Digitizing field data to eliminate paperwork, improve data quality, and automate downstream workflows
- **[Autodesk Construction Cloud](#):** Implementation, configuration, and optimization strategies that help teams standardize processes, improve collaboration, and gain better visibility across projects
- **[IMAGINiT Pulse Integrations](#):** Seamlessly connect Autodesk Construction Cloud to other popular enterprise tools so that critical data can be shared to support connected workflows across estimating, financial, and document management systems
- **[ProductivityNOW for Construction](#):** On-demand learning, support, and productivity resources that help teams adopt technology faster and work more efficiently
